

NETWORK INTEROPERABILITY SERVICES

OUR CUSTOMERS NEED TO CREATE A FULLY INTEGRATED NETWORK ENABLED ENVIRONMENT TO ENABLE TACTICAL INFORMATION EXCHANGE FOR JOINT AND COALITION OPERATIONS.

/// FACT SHEET

EDS has a unique combination of Operational experience, understanding Tactical Information Exchange technologies, systems integration expertise and experience supporting TACTICAL INFORMATION EXCHANGE acquisition in the UK and Overseas

SERVICES

Tactical Information Exchange Concepts

Capability Development & Roadmaps

Technology Insertion

Standards Configuration Management & Application

Network Planning, Design & Management

Network Interoperability Services Consulting

In meeting the challenge of creating a fully integrated Network Enabled environment for Joint and Coalition Operations, Visions, Concepts, Operational Analysis, Architectures, Models, Requirements, Equipment Acquisition, Training and Exercises must all contribute to effective and integrated network enabled capabilities.

Achievement of this requires a coherent understanding the current capability, future requirements, emerging & future technologies, technology migration/insertion options and the constraints imposed by standards, COTS technology and the changing environment in which new or upgraded capability must operate. Our service offerings include:

- Support to development of Policy and Concepts (CONOP/CONEMP/CONUSE)
- Application of Coalition Capability Development Framework
- Capability Management, Sustainment & Roadmap Development
- Advice on Technology Insertion and Systems Integration
- Through-Life & Multi-Agency Interoperability Assurance
- Network/Platform Requirement Capture, Analysis & Management
- Standards Maintenance and Compliance
- Network Planning & Design Advice
- Frequency Clearance & Spectrum Management
- Support to Testing, IV&V, Trials & Exercises

POINT OF CONTACT

If you have a requirement for support, we'd welcome your call. If you require further information, we are happy to discuss your needs and our capabilities.
