

NITWORKS – CAPABILITY THROUGH PARTNERING

EDS IS COMMITTED TO DELIVERING NEC BENEFITS THROUGH PROVISION OF THEME LEADERSHIP, ARCHITECTS, SUBJECT MATTER EXPERTS, CAPABILITY INTEGRATION AND DEPLOYED SYSTEMS

/// FACT SHEET

NITeworks has recently completed its Assessment and Transition Phases. It is currently supporting a number of short-term activities aimed at adapting the NITeworks capacity to broaden its role of delivering demonstrable benefits to enhance network enabled Military Capability

FEATURES

- Theme leadership
- Innovative architects
- Subject Matter Experts
- Capability Integration
- Modelling & Simulation
- Joint & Deployed Systems

NITeworks

The Project

NITeworks (Network Integration Test and Experimentation Works) is an experimental environment that allows the UK Ministry of Defence to assess the benefits of Network Enabled Capability (NEC) and the options for its effective and timely delivery.

The Partnership

NITeworks is a partnership between the Ministry of Defence and the defence industry. This unique arrangement allows NITeworks to draw on the widest possible range of specialist skills, information and facilities in addressing problems set by the Ministry of Defence. The NITeworks Stakeholder Organisation is unique and draws from a wide skills base. EDS is a full partner with active involvement in the NITeworks Industry Board.

The EDS role

Provision of Consultancy Expertise

EDS Defence has provided experienced consultants to the NITeworks Core Team and Themes in the following roles:

- Theme Leaders (Managing Experiments)
- Technical Coordinators
- Modelling & Simulation Experts
- Capability Integration Architects & Engineers
- Battlespace Architects
- Facilities Architects
- Subject Matter Experts

BENEFITS

- Creation of JOCS/BCIP interface
- Deployment of JOCS to Army Divisions
- Identification of cross theme performance benefits
- Sharing of intellectual benefits across organizational boundaries

POINTS OF CONTACT

If you have a requirement for support, we'd welcome your call. If you require further information, we are happy to discuss your needs and our capabilities.

Provision of Facilities & Capabilities

EDS has provided infrastructure and capabilities to enable Visualisations, Pilots and Experiments including:

- The Joint Operations Command System (JOCS)
- Royal Navy Command Support System (RNCSS)
- Army Tactical Computer System
- The STARDIS Toolset
- The ISTAR Testbed (ISOSCELES)

EDS Involvement in NITEworks Themes

EDS has provided consultancy support and/or facilities support to a number of Themes including:

- Recognised Land Picture (RLP)
- ISTAR 1 - Request for Information Management
- ISTAR 2 - Collection coordination of ISTAR information
- Land Tactical Picture 05 (LTPO5)
- Cross Theme (X-Theme)
- Joint Intelligence Picture (JIP)
- Medium Weight Capability (MWCap A&B)

Medium Weight Capability Theme

The extremely successful theme, conducted in 2005/6 and lead by EDS, represented an innovative concept development activity in support of DCDC. Against a new position paper, an experiment was developed and conducted which generated significant interest in new command enablers, organisational constructs and use of "chat" across components. The theme reflected the pre-concept thought leadership aspect of NITEworks in a Customers' Friend role.
